

# Tony Swarez the sound sailor

## His credo: the selection!

Never the same set, but an improvised journey through a rare analog and digital library, one of which he is the sole guardian, curated specifically for every occasion.

In his cargo hold: a swarming collection of vinyl records whose thousand legs stroke afro and latin grooves, jazz-funk, and soul, while increasingly flirting with disco and house. All without ever forgetting to revisit his first love: 90s Hip-Hop.
