

Walkabout Sound System

The Walkabout Sound System mobile disco, now empowered by the addition of solar panels, boasts a unique and independent setup: **8 hours of battery-powered music with a full sound system entirely contained within its own vintage transport!**

The Estafette stands ready to open its roof wide, letting the turntables pour their Afro, Soul, Jazz, Funk, Latin, Hip-Hop, and House melodies into enchanted ears. Depending on the occasion, the "crowd conductor" invites virtuosos of percussion, sax, or vocals to join the crew on board.

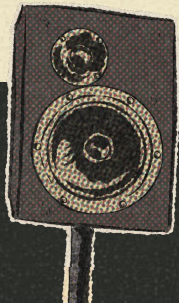

LENGTH	4 m	WIDTH	1.8 m
HEIGHT	2 m	OPERATING HEIGHT	2.6 m
WEIGHT	1300 kg	ELECTRIC GENERATOR	Ecoflow 2.4kW*
